

OCCUPATIONAL HEALTH & SAFETY POLICY

The health and wellbeing of our people is more important than other business activity.

We believe that all incidents are preventable, and we will work to continuously improve our systems and behaviours to provide a safe working environment for all employees, contractors, and visitors.

To be successful we will ensure safety as a key value and provide safe work environments.

We will foster a safety culture and manage risks by identifying hazards and carefully planning and carrying out all work with the aim of incurring no incidents.

Every individual in the organisation shares a responsibility for safety.

We will investigate and report all incidents and accidents to ensure the development of corrective actions and continuous improvement.

Gary Harvey
